

APEX Series of Events

ConnEXions

These experiential learning events provide for informal discussions with senior executives on subjects that matter to the community, e.g. major government initiatives, leadership competencies, the work of Agents of Parliament, etc. Our aim is for executives to have an opportunity to participate in a conversation with senior executives sharing their practical experience. These sessions are normally held over lunch time.

EXplorations

These site visits provide opportunities to visit locations where executives can see first-hand the work involved in complex projects or operations as well as the partnerships and collaborations they require. The visit is normally preceded by a background briefing, usually led by a senior executive, and includes questions and answers.

EXpressions

These consultations with executives are focused on current and emerging issues that are of concern to them. These informal discussions provide valuable input, along with research, formal consultation, and analysis for representations to senior executives and advisory committees on behalf of APEX members.

EXecutive Toolbox

These events provide learning opportunities on a variety of practical topics impacting executives' day-to-day job, e.g. management of financial and human resources, career management, etc. Our aim is to help executives enhance their abilities and skills in practical ways.
